Call for abstracts

The European Conferences on Boron Chemistry (EUROBORON) held every three years represent a forum where all aspects of boron chemistry are discussed by scientists, both professionals and students. Previous EUROBORON meetings were successfully held in several European countries since 1997. The 8th edition of the EUROBORON conferences comes to France. **As the conference hosts we would like to welcome both confirmed and young researchers to be with us in Montpellier starting June 24th, 2019**
